GROOMER DAY ONE

RULES & EXPECTATIONS | All Woof Gang locations

Welcome to the team. Review these standards with your manager before independently handling dogs.

1. SAFETY FIRST - NO EXCEPTIONS

- Never leave a dog unattended on a grooming table or in a tub. Always use appropriate grooming restraints.
- Keep all doors closed. Use a lead when moving dogs; never allow dogs to roam freely. Never kennel a dog wearing a collar or leash.
- Handle dogs gently and use safe lifting techniques. Stop and notify management if a dog shows stress, aggression, or discomfort.
- Immediately report all bites, injuries, incidents and near misses. Secure the dog, obtain appropriate help, and let management coordinate customer communication.
- Know the first aid kit and emergency procedures. Keep walkways clear and floors as dry as possible.
- A signed shave-down waiver is required before any shave-down. Safety takes priority over speed and sales.

2. GROOMING & SHAMPOO STANDARDS

- Standard grooms include Woof Gang Shampoo, Conditioner and Facial Shampoo.
- Review sensitivities, previous reactions and special instructions before choosing products.
- Recommend appropriate spa services, but obtain customer approval before additional charges or services.

3. PRICING - WEIGHT & COAT TYPE

- Grooming pricing is based on the dog's actual weight and coat type. The groomer must weigh the dog and assess its coat at check-in.
- Verify and correct BOTH fields in FranPOS before beginning. Do not rely on an old or estimated classification.
- Notify management of any change affecting price so the customer receives and approves the revised quote before grooming begins.

4. CLIENT NOTES & FRANPOS

- Review grooming history, styling instructions, behavior and health alerts before every appointment.
- Document haircut details, coat condition, behavior and follow-up needs for every dog before leaving for the day.

5. SCHEDULING, LATE ARRIVALS & TIME OFF

- 5 minutes late: Front desk contacts the customer by call and text to confirm arrival status; groomer and manager are kept informed.
- 15 or more minutes late: Consult the groomer and manager. Management decides whether to accept the appointment, adjust the service, or reschedule based on available time and safety. Never rush a dog to fit a late arrival.
- Submit planned time-off, shift changes and early-departure requests through the scheduling request form. Approval is required; a text alone is not a request.

6. PICKUP & CUSTOMER COMMUNICATION

- Customers receive a pickup notification approximately 15 minutes before completion. Confirm timing with the front desk.
- Do not promise uncertain pickup times. Escalate special arrangements, delays and customer concerns to management.

7. ATTENDANCE & RELIABILITY

- Be clocked in and ready to work at your scheduled start time. Notify Kyle and your store manager promptly if late or absent.
- Stay through your final checkout unless management approves otherwise.

8. CLEANING & SANITATION

- Sanitize tables and work areas between dogs; remove hair and clean tubs after every use.
- Participate in end-of-shift vacuuming, disinfection and shared cleaning duties.

9. TEAMWORK & PROFESSIONALISM

- Treat customers and coworkers respectfully; help teammates and follow manager instructions.
- Report incidents in good faith immediately. Unsafe conduct may be reviewed and addressed separately from reporting.

EMPLOYEE ACKNOWLEDGMENT

I have reviewed these standards, including the 5-minute / 15-minute late-arrival procedure and my responsibility to verify weight and coat type in FranPOS.
