Groomer Day One Reference

What every member of our grooming team needs to know from day one.

1. Safety

On the Table & in the Tub

• Never leave a dog unattended on the grooming table — always use the loop.

• Never leave a dog unattended in the tub.

• Handle every dog gently and with two hands when lifting or transferring.

Drying Kennels — Read This Carefully

■ **Drying kennels must be supervised at all times. Never walk away while a dog is in a drying kennel.**

■ **NEVER place a brachycephalic breed in a drying kennel. This includes: French Bulldogs, Pugs, English Bulldogs, Boston Terriers, Shih Tzus, Pekingese, and Boxers. These breeds cannot regulate heat and are at serious risk of overheating. Use a hand dryer or HV dryer only.**

Leashes, Leads & Doors

• Dogs must always be on a lead when outside of a kennel or grooming area — never allow a dog to roam the store freely.

• Never leave a dog in a kennel with a collar or leash on — this is a strangulation hazard.

• All doors must remain closed at all times — no exceptions.

Incidents & Emergencies

• If a dog shows signs of stress, aggression, or discomfort — stop and get Cindy immediately.

• See something, say something — report any injury, incident, or behavioral concern right away, no matter how small.

• If a dog is injured or bites, document it and notify management before calling the client.

• Know where the first aid kit is located.

• Wet floors are constant — stay aware and keep walkways clear at all times.

Waivers

■ **Shave downs require a signed waiver before grooming begins. If a client requests a shave down and no waiver is on file, get Cindy before proceeding.**

2. Shampoo Routine

• Every groom includes Woof Gang Shampoo, Conditioner, and Facial Shampoo as the standard routine.

• Spa upgrades are available and encouraged — refer to the attached Spa Upgrades sheet for full descriptions.

• Always check client notes before the appointment for product preferences, sensitivities, or prior reactions.

3. Schedule & Changes

• Work with Cindy on all scheduling — she manages shift coverage.

- If you need a day off, shift change, or need to come in late or leave early, do not text — use our scheduling request form.
- Cindy will share the link with you directly. All requests go through that form so nothing gets lost.

4. Client Notes & FranPOS

- Always review past notes in FranPOS before checking in a dog — know what was done last time, any sensitivities, and what the client expects.
- At the end of each day, add notes for every dog you groomed — coat condition, behavior, anything the client or next groomer should know.
- Good notes are what make clients feel remembered. Take them seriously.

5. Pickup & Customer Communication

- We send customers a text message 15 minutes before their dog is ready for pickup — this is automatic.
- If a customer mentions a special pickup arrangement, a later arrival, or anything outside the norm — let Cindy or management know right away so we can plan accordingly.
- Never promise a pickup time you're not sure about. Check with Cindy first.

6. Time & Attendance

- If you are running late for any reason, contact Kyle and Cindy as early as possible so we can adjust coverage.
- If you see that your last appointment slots of the day are open and you need to leave early, let us know — we will do our best to work with you.
- Please stay through your last checkout. Exceptions may be made if an owner is unable to pick up for an extended period, but that decision is management's to make.
- Reliability is everything in a service business. We cover for each other — please extend the same courtesy.

7. End of Shift — Cleaning

- At the end of every shift, pitch in for cleaning. This is a team responsibility, not one person's job.
- The salon must be cleaned and vacuumed daily — floors, surfaces, and all grooming areas.
- Grooming tables and surrounding areas must be sanitized after each dog.
- Bathtubs must be cleaned after each use — no hair residue — and disinfected at end of day.
- A clean salon is a safe salon and reflects the standard our clients expect.

Questions? Talk to Cindy. She is your first point of contact for anything day-to-day. For anything escalated, Kyle and Betty are always available.
